WATER COMMISSIONERS REPORT

Your Commissioners submit the following report for the year 1967.

The new well and pumphouse have been completed and in operation since October 29th. The well is a gravel-packed well, eighteen (18) inches in diameter and thirty (30) feet deep. The new pump is a Jacuzzi submerged type, 350 gallons per minute rated. There is no doubt in the Commissioners' minds that if these badly needed improvements had not been made this past year we would have been in serious difficulties this past winter with the level in the lake as low as it has been. It would have been impossible to get water from the ground with our old vacuum system.

The tank has been covered and the interior has been painted with three coats of plastic paint. This was done in accordance to the specifications drawn up by Anderson-Nichols Co., approved by the Federal Government.

Applications are still in for Federal funds for the North end extension, but it seems very improbable that we will ever hear from them.

The old pumphouse has been stripped of all the old equipment and we have installed an overhead door in the east wall to facilitate the storage of soda-ash and other district supplies.

It has been a very productive year and the system is now in very good shape and except for normal problems of service leaks and freeze-ups we should be trouble free for a long period of time.

Respectfully submitted,
Frank E. McIntire

WATER DISTRICT WARRANT

To the Inhabitants of the Milton Water District, in the Town of Milton, qualified to vote in District affairs:

You are notified to meet in the American Legion Hall in said District, Saturday the 16th day of March, 1968, at seven thirty (7:30) o'clock in the afternoon to act on the following articles:

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Commissioner for the ensuing three years.

Article 4. To choose a Treasurer for the ensuing year.

Article 5. To appropriate a sum of money not to exceed \$7,250 to pay for retirement of notes and interest.

Article 6. (By petition) To see if the District will authorize the Commissioners to borrow on serial notes, or bonds, a sum of money sufficient to extend the water main, this year, to the District tax payers north of the railroad crossing on Rt. 16.

Article 7. To authorize the Commissioners to borrow on serial notes, or bonds, the sum of \$45,000 to pay for Article 6.

Article 8. To authorize the Commissioners to hire on notes of the District a sum of money necessary to pay expenses in anticipation of taxes.

Article 9. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 8th day of February, 1968.

FIRE WARDEN REPORT

After several successive years of drought, the rains of 1967 came as a welcome change. Our record of the past fire season is good. Our thanks to all who contributed to achieve this good record. Continued improvement in the matter of accurate, prompt detection and rapid effective suppression action can help to maintain this good, worthwhile record even though we do not have an abundance of rain as in the fire season of 1967.

It will help if we follow these simple suggestions:

1. No burning of debris and waste between the hours of 9:00 A.M. and 5:00 P.M. and then only with a written permit from the Forest Fire Warden.
2. Take debris and waste to the town dump.
3. Maintain a clean, safe dump.
4. Keep matches away from young children.
5. Be sure matches and smoking material are dead out when we discard them.
6. Set a good example for others in fire prevention.

As time passes, there seems to be little diminution in the size, number, or complexity of problems facing public education on any level of government - national, state or local. Included among these problems are financing, housing, teacher recruitment, and, most important, maintaining a reasonable level of educational opportunity for our young people.

In New Hampshire, the problem of financing is most acute, as so great a portion of the burden falls upon the local community, in contrast with the situation in other states. At this writing, there seems little likelihood that this burden will be reduced by the creation of other sources of school monies, yet the prices of goods and services for education continue to rise. To date, the voters and taxpayers have risen to the task of providing a good school system for the community, and is being requested to continue to do so.

According to the magazine, School Management, spending on public schools reached a new height last year, rising 6.9%. In New England, the average per pupil cost for elementary schools was \$483 and for high schools, \$628. In reporting on the whole nation, the magazine cited the following facts: the median teacher salary was \$7,134 per year; the average cost of textbooks and other materials of instruction per pupil was \$19.85; the average annual per pupil cost of transportation was \$20.75; and the amount of money raised by schools for each district varied from \$.62 in the wealthiest districts to \$2.36 in poorest districts per \$100 of true property value.

In addition to the task of providing for the operation of the present school system from year to year, the school district is faced with the need of providing sufficient housing for its growing number of students. To this end, Farmington and Milton have joined in an informal study of the possibility of establishing a joint or cooperative arrangement for the two communities. The following citizens are currently working on this study: Milton - Edwin Boggs, Forrest Sceggell, and Blake Booth; Middleton - Enid DiPrizio, Ann Hynes, and Harold Nicola; and Farmington - Beulah Thayer, Harold Meserve, and Cornelius Sullivan, Jr. It is thought that by using the plants already available in the two localities, it would be possible to provide good facilities with a minimum of construction and a reduction

in the cost of new buildings. Further advantages that might be gained would be an increase in the number of educational opportunities for the pupils, and a better utilization of the facilities now available in the two systems.

The past five years have shown an emergence of a new militancy on the part of school teachers in the United States. Our daily newspapers feature front page headlines reporting teacher strikes and educational sanctions across the nation.

In education, direct negotiations with school boards is becoming more and more common in New Hampshire. Direct negotiation is a process by which the teachers in a locality choose an organization to represent them. This organization, either an association or labor union, meets with the local school board. The two, together, and jointly, set and determine the salaries and working conditions of the teachers in that district. This is a bilateral decision making process as opposed to the unilateral process customarily used. The agreements that are reached in these negotiations are incorporated in a written document signed by both parties. The New Hampshire Association of School Administrators has adopted a legal form to be used in this state.

The reason for the above description of collective negotiation is to make the general public aware of what it may face in the future. At this writing, for example, some of the immediate goals of New Hampshire teachers, as published by the New Hampshire Education Association are as follows: a base starting salary of \$5,600; improved working conditions, increased sick leave; partial payment of group life and health insurance by the local district; a signed professional negotiations agreement, et cetera.

The continuing shortage of certified teachers, and the growth of student population, makes a serious consideration of the above trends of great importance in considering a sensible solution of problems which confront the local school district.

Citizens are encouraged to refer to the reports of other school personnel for details as to the operation of the local schools, and the statements of progress being made in the va-

rious aspects of public education locally.

In closing, the undersigned should like to express their appreciation of the cooperation they have received from the local citizens, school boards, and professional staff. During the days ahead we will appreciate, as in the past, your continued cooperation in the best interest of good education.

Respectfully submitted,
RAMON MARTINEAU

REPORT OF THE PRINCIPAL

To the Superintendent of Schools:

This school year has found several staff changes in the Milton Mills Grammer School and Nute High School. Mrs. Mary Jane Callahan is teaching Grades 3, 4 and 5 in the Milton Mills School. Mrs. Callahan is a graduate of Colby Junior College and has done extensive substitute teaching on both the elementary and secondary level.

In the high school, Mr. Charles Beno is a new science teacher. He has completed his Master's Degree work at the University of New Hampshire and taught last year at Timberlane Regional High School as a teaching intern.

Mrs. Barbara Randall is one of two new members of our social studies department. She has recently completed work at the University of New Hampshire for her Master's Degree in history.

Mr. Ronald Gendreau, a graduate of the University of Maine who has also completed a great deal of graduate work, is our other new social studies faculty member. He spent the second half of last year teaching social studies on the junior high level before coming to Nute.

Miss Cynthia Place is our new English instructor. She graduated from Emmanuel College in Boston and taught last year in the Barrington Elementary School. It is my feeling that these new members, added to an already strong staff, give us one of the finest teaching staffs in the area.

We were all saddened by the sudden death of Mr. Wilbert Nutter, but Mrs. Nutter is carrying on an excellent program and music will continue to be a strong program.

Despite severe budgetary limitations, we have been able to initiate exciting ideas at Nute. The cafeteria has become a student center, where students and teachers can gather to socialize, purchase paperback books, hold informal seminars, play chess and other similar activities. Some teachers are working with new teaching and grading techniques which are designed to involve the students. With few exceptions, the students are now coming to realize the validity of the approaches, and to

get excited about them. At the same time, we have been careful to maintain a great deal of the more traditional approaches. The result has been that students are now able to see many different good ways of learning.

With the exception of girl's volleyball, the sports program has been completely carried out this year. It is evident, however, that without financial support, we will be unable to carry out the sports program next year.

I would like to express my thanks to the students, teachers and staff, and the townspeople of Milton for the cooperation and support which has made it possible for the Milton Schools to enjoy a successful year.

Respectfully submitted,
Philip D. Bell, Jr.

AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Milton, New Hampshire, of which the above is a true summary for the fiscal year ending June 30, 1967, and find them correct in all respects.

Auditors

To the Superintendent of Schools:

This year the Elementary School opened in September with an enrollment of 200 students and 9 teachers. The enrollment by grades was: Grade 1 - 44, Grade 2 - 27, Grade 3 - 27, Grade 4 - 32, Grade 5 - 32, Grade 6 - 29, and the Special Class - 10.

There were several staff changes this year. Miss Antonia Knapp, a graduate of Keene State College, is teaching a section of the first grade. Mrs. Martha Plummer replaced Mrs. Ethel Arnold as the third grade teacher. Mrs. Plummer holds a Master's Degree from Boston University. Mrs. Faith Harriman, who attended Plymouth State College, replaced Miss Jane Fox as the remedial reading teacher. Mrs. Anna White, a graduate of Bridgewater State College, replaced Mrs. Elsie Julin in the special class. Mr. Robert Lumbard is now the full-time custodian, having replaced Harold Trafton.

This year's Christmas program was quite a success, both from the student and audience standpoints. Over 150 interested parents and friends attended the program, and the turnout was much appreciated by the teachers and students.

Unfortunately, we were forced to cancel the hot-lunch program because of necessary budgetary cuts, but hopefully we will be able to once again provide this necessary and worthwhile program next year.

Six tether poles have been set up on the playground, and the tetherball is fast becoming one of the most popular sports on the playground. There may be an occasional "bruised" hand or two, but the children have a great deal of fun with this game.

Also, the Women's Club has very graciously contributed \$100 for the purchase of playground equipment, and hopefully this sum will go a long way toward defraying the cost of an outdoor basketball court, which we hope to have ready for the use of students and townspeople by the next academic year.

Respectfully submitted,
Robert C. Eames, Principal

REPORT OF THE SCHOOL NURSE

To the School Board, Superintendent of Schools, and the
Citizens of Milton:

The following is a brief summary of the health services provided in the three schools: Milton Elementary, Milton Mills, and Nute High School.

Orientation Day was held May 10, and thirty-three (33) children attended. The usual program was carried out. This included checking eyes, height, weight, ears and teeth. Mrs. Burton was able to be with us to check the teeth and to talk with the mothers.

I also had several consultations with parents as well as students. Mr. Eames (Principal of Milton Elementary) and I had a consultation with a doctor at the Child Guidance Clinic in Dover, New Hampshire.

I attended eight (8) nurses' meetings; six in the afternoon after school, one during vacation, and the annual meeting in the fall. Meetings were held in Somersworth, Durham, Concord and Manchester. I also went to Concord in regard to surplus food for the hot lunch program.

Again, I wish to thank the School Board, Superintendent Martineau, principals, teachers and other members of the staff for their close cooperation.
